**Reference Guide**

Please read this guide BEFORE you use your gear!

## Input

Input 12.5±2V

## Output

110 Output Mode:

110V±10%V DC output (100W max: 200W peak)

220 Output Mode:

220V±10%V DC output (100W max: 200W peak)

## General

Product weight (no pkg)

<1 lbs

Product dimensions

6" x 4" x 2"

Warranty

Twelve months

## Operating Temperatures

Optimal Operating Temperature

32-104F

Optimal Storage Temperature

32-86F

Tested and certified

Before using your SHERPA UI for the first time, activate your warranty by following these simple steps.

1. Activate your warranty by registering your GOALØ gear at <http://www.goal0.com/warranty>
2. Connect the SHERPA UI to your power pack via the SHERPA power pack's chaining cable.
3. Select the correct voltage (110 or 220) from the back of the SHERPA UI.
4. Make sure your SHERPA power pack is fully charged and turn it on.
5. Turn on the SHERPA UI.
6. Confirm that the correct voltage is selected from the light indicators at the front of the SHERPA UI.

You are now ready to power your AC device!

*Hint: The unique design of the SHERPA UI's outlet can accept all popular Western, European and Asian AC plugs. In the US the standard is 110. Make sure that you select the correct voltage for your device.*

### CONFIRM IT

Before plugging in your device to the SHERPA UI make sure that you select the right voltage - the light will indicate whether it is set for 110V or 220V .

### TURN IT ON

Push the rocker switch to the ON position to use the SHERPA UI to power your three (2 or 3) prong device.

### PLUG IT IN

Plug in your device. The universal outlet accepts all popular Western, European and Asian devices that typically plug into the wall.

**COOL IT**

The SHERPA UI includes an efficient fan to keep your gear working under cool conditions.

**SWITCH IT**

Remove the rubber stopper to switch the SHERPA to 110V or 220V. Devices from the USA should use the 110V setting.

**CHAIN IT**

Plug the chaining cable into the chaining port from the chaining cable of your SHERPA power pack to use your AC devices.

Use the DC male adapter to power devices from your car or boat.

**Q- Is the SHERPA UI waterproof?**

A-No. Do not use the SHERPA UI if it is wet. Allow it to dry completely before use.

**Q- What will happen if I select the wrong voltage?**

A-You can severely damage your devices if you do not select the right voltage. Please verify the voltage requirements of your device before trying to power it via the SHERPA UI.

**Q- Can I use the SHERPA UI with chained power packs?**

A-Yes. Make sure that both SHERPA power packs are turned on.

**Q- Can I use the SHERPA UI while charging power packs?**

A-Yes. You can use the SHERPA UI when charging the connected power packs from the wall or GOALØ solar panels.

**Q- Why won't the SHERPA UI turn ON?**

A-Make sure that the chaining cable is securely inserted into the power pack and the SHERPA UI. Also, make sure that both the SHERPA UI and the power pack are turned on.

**Q- Does the SHERPA UI store any power?**

A-No. The SHERPA UI is a device that must be connected to a SHERPA power pack, or to your car's cigarette adapter to power devices that typically draw electricity from a wall outlet.

### SHERPA POWER PACKS

From uncharted territory to areas with inconsistent power, this lightweight, compact rechargeable and chainable power pack offers even more power to go everywhere.

### NOMAD FOLDABLE FABRIC PANELS

When space is tight and every ounce counts, this compact, chainable and foldable fabric solar panel system packs the perfect power source for every adventure.

### ESTRELLA Cree LED LIGHT

With the ESTRELLA's low power draw, you can keep the trail, campsite or tent lit for hours at a time. Chain multiple Estrellas together for even more light.

### SHERPA UI - INVERTER

The SHERPA UI taps into the ELITE line of power packs and enables you to charge AC devices that can typically only draw power from a wall outlet.
