

## QUICK CLIP

SOLAR PANEL CONNECTOR

### Get to Know Your Gear

#### TWIST IT

The green lever turns a full 360° so you can lock panels in place and get to them easily.

#### CONNECT IT

The pronged end fits securely through the side slots on GOAL ZERO BOULDER solar panels.

### Getting Started

1. Be sure to **ACTIVATE YOUR WARRANTY** at [www.GOALZERO.com/warranty](http://www.GOALZERO.com/warranty)
2. Line up **BOULDER** solar panels so that the holes are even.
3. Insert the **QUICK CLIP** through both panels and twist.

### How to Use Your Gear

#### 1 Insert

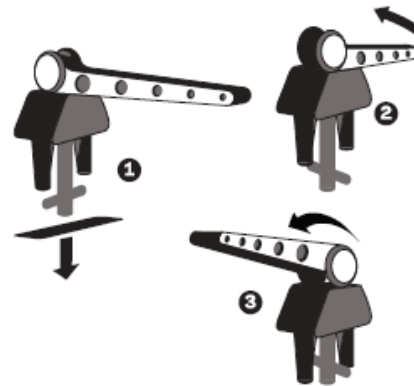

Align panel QUICK-CLIP holes. Insert pronged end. Push all the way down so the base is rested against panel. Make sure lever is perpendicular to panels.

#### 2 Secure

Twist lever 45° in either direction.

#### Lock

Flip lever completely over and lock into position. You will feel it become secure.
